### Compliance with Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act

M. Vincent & Associates is a distributor of metal products that may or may not arrive to us containing tungsten, tantalum, tin or gold. Our activities are confined to the distribution of the metals and do not in any way alter or impact the chemical content of those products.

We have done our due diligence concerning the mills that produce the material we buy, whether through direct purchase or through another layer of distribution. There are a number of companies in the supply chain that separate us from the mines where tantalum, tin, tungsten, and gold (“Conflict Minerals”) are sourced. Some of these are subject to compliance with the Dodd-Frank Act, while others are not. Based on a reasonable inquiry of our suppliers, to our knowledge, the materials we supply to our customers after January 31, 2013, will be “DRC conflict free” since such products either are produced from recycled and scrap sources or contain “Conflict Minerals” that do not originate from the Democratic Republic of the Congo or adjoining countries.

If requested, we will supply the originating mills compliance statement along with mill test reports on delivery of product.

Signed

David Hannah  
Operations Manager  
Quality Management Representative
